

TURNSTILE EXPERT

Pedestrian access control Solution

Fast speed

Secured entry

Efficient Control

CXT Technology Co., Ltd

◆ 10+ year dedication with superior quality

◆ Top preferred Turnstile/Speed gates brand in China

◆ Value-orientation and Quality consciousness

◆ Service consciousness to exceed customers expect

Tripod Turnstile

Product Functions: 1. Adopt Brush-less motor, merits for longer lifespan; 2. Adopt ARM control technology, merits for stronger function and better expand-ability; 3. Modular design, the structure is simpler and easier to maintain; 4. Better buffer effect, greatly prevent collision and human injuries; 5. With timely reverse push force will frighten illegle intruder; 6. Higher cost effective(high end performance and low-end affordable price).

Product Features: 1. Environment: indoor/outdoor 2. Appearance grade: middle/low 3. Anti-trailing: high 4. Anti-collision: high 5. Pass group: pedestrian

Sliding Turnstile

Product Functions: 1. Faster speed and better anti-tailgate performance. Design of connecting pole, run smoothly without noise; 2. Anti-climb, Anti-creeper, Strict management and higher grade appearance which offering graceful passage; 3. Infrared anti pinch design and Dormancy function when barrier is blocked to achieve a more safe passage; 4. Sound and light alarm, including illegal intrusion, reverse passing, tailgate and overdue passing etc; 5. Gate auto open when power is off to meet the fire protection requirements.

Brushless Swing Turnstiles

Product Functions: 1. Adopt Brush-less motor, it has longer lifespan; 2. Non polar collision avoidance, it has strong resistance to destruction; 3. Super ego protection, it is the preferred choice for non-motorized vehicle passageway; 4. Cutting edge new ARM technology, which has better expand-ability and high cost performance; 5. Merits for smooth running, speed adjustable and low wear; 6. Adopt module structure design, it has easier operation and less maintenance; 7. Lane size can be setting and has good anti-pinch performance to protect passengers;

Product Features: 1. Environment: indoor/outdoor 2. Appearance grade: middle/low 3. Anti-tailgate: middle 4. Anti-collision: high 5. Pass group: pedestrian/vehnicle
